

BOA-SKI

September 16, 1970

TO: ALL BOA-SKI DEALERS

CUSTOMER SERVICE INFORMATION

Bulletin No. 11

Gentlemen:

We have, on several occasions, been asked by dealers what they should carry as far as parts inventory is concerned, and on bulletin no. 10, we suggested that you should compile a stock order of fast moving parts.

To assist you in deciding just what you should order, we are enclosing three lists containing items which we consider fast moving.

One list is for 1969/70 parts, one for 1971 parts and one for engine parts which can be used on the machines sold to date which includes 1969/70/71.

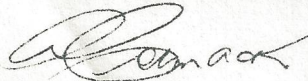

The quantities suggested are minimums and should not be classed as maximums; you should take into consideration the amount of machines out in your area when deciding how many of each part to order.

These lists are only to be used as guides and you can of course add to, or delete, as you feel necessary.

Don't forget to mark your order "Pre-Season Stock Order" if you wish to enjoy the special terms offered on order of \$300 or more.

Yours very truly,

F. MANLEY & SONS LIMITED
